

Room survey sheet — 8 dimensions

Fill this in before the first quote. A tape measure is enough.

Project

Date

Room

The 8 dimensions

- ☐ Length × width (wall to wall, not skirting to skirting)
- ☐ Ceiling height (at least 2 points: corner + middle)
- ☐ Diagonals (to check if the room is rectangular)
- ☐ Width of each door + swing direction
- ☐ Window widths + sill height (floor to window underside)
- ☐ Projections: radiator, chimney, ducts, niches
- ☐ Service axes: sink / WC / outlets (from a corner)
- ☐ Access: floor, lift, parking, building rules

Photos to take (full walls)

- ☐ 4 walls
- ☐ Each opening
- ☐ Ceiling + floor
- ☐ Meters / supplies

Golden rule – Write the dimensions down. A measurement said on the phone does not exist for the contractor.
